WEAVING & INNOVATING

Itema Group Presentation

ITEMA Has a Long Standing Legacy & Strong Heritage

More than 60 years experience bringing together the best of know-how and excellence of historic brands:

SULZER + SOMET + VAMATEX = iteMA

ITEMA Technology Spans 3 Weft Insertion Systems

3 TECHNOLOGIES, 1 BRAND

Itema is **the only manufacturer worldwide** offering the top three leading shuttleless weft insertion systems: rapier, airjet and projectile.

Itema offers all weavers a tailor-made solution for **any requirement in terms of quality, performance, efficiency and environmental friendliness.**

ITEMA at a Glance

2015 Turnover
some **€400 Mln**

of which
some **€250 Mln**
from Weaving
Machines

835
employees
worldwide

390
employees
In Italy

Itema is a privately
held italian
multinational
Company

Part of Radici Group,
one of the most important
Bergamo companies,
with 2015 turnover
€1.4 billion and **4,120**
employees worldwide

+80% YOY increase
in number of weaving
machines installed in
2013-2015

Almost **300,000**
weaving machines
installed since
inception

ITEMA Commitment to Continuous Innovation

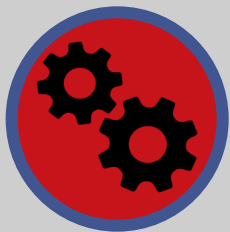

CONTINUOUS IMPROVEMENT

We invest 5-6% on average of our yearly profits in R&D to continuously improve our products.

ITEMA ACADEMY

We believe in young generations. We launched Itema Academy aimed at recruiting and retaining talented new graduates.

INNOVATION AND SUCCESS STORIES

Our Rapier R9500 now brings in 50% of our Turnover from Weaving Machines.

COMMITMENT TO R&D

We are the only weaving machine manufacturer worldwide to have two research departments, of which one entirely dedicated to the pursuit of the “loom of the future.”

NEW R9500^{QRP}*p*

A9500^{QRP}*p*

P7300HP

R9500^{QRP}

A9500^{QRP}

NEW R9500^{QRP}*terry*

A9500^{QRP}*e*

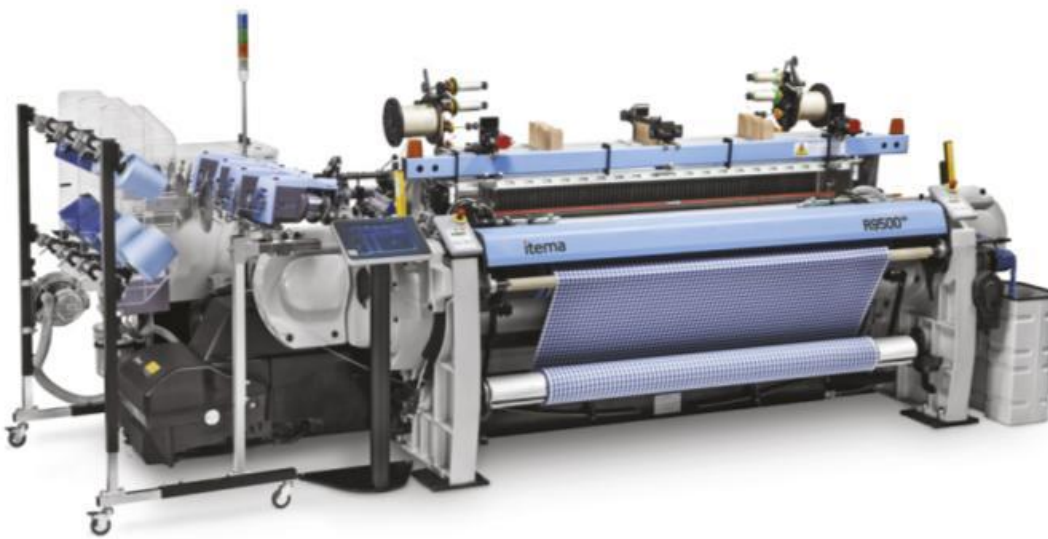

Why R9500

Speed / Simplicity / Versatility
R9500 weaves faster, with an optimized unique rapier drive. Ideal shed and beat up geometry.

Main Features R9500

- Widest application range
- Perfect fabric quality
- Sturdy, high precision machine frame
- Lowest vibration pattern at high speeds
- Powerful NCP electronic platform
- Reduced number of parts
- QRP seal: 24 months guarantee

Apparel / Household / Technical fabrics

Strong position in shirting, denim and fancy fabrics. Now up to 540 cm wide.

Itema's Best Seller. High versatility of fabric and pattern, best-in-class technological advancements. Widest choice of yarns and fancy Denim.

2 YEARS WARRANTY ON OUR
CERTIFIED MACHINES

Why P7300HP

Unique / energy efficient/ Top quality
Insertion system applicable to the widest widths. Top quality fabrics due to precise and stable control of warp and weft tension ratio.

Main Features P7300HP

Available in weaving width up to 655 cm
The lowest waste among all other insertion technologies
Long life span (up to 40 years) - unique in the weaving industry
Great overall investment = great value for money
Low service and maintenance costs
Low power consumption

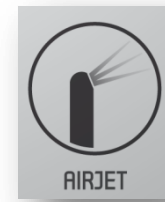

Apparel / Technical fabrics

Strong position in technical fabrics and high class and heavy (>14oz) denim applications

Unique positive weft insertion system. Particularly strong for technical fabrics and premium denim.

Why A9500p

Speed / Quality / Performance

A9500p equipped to reach the limits of the yarns. High speeds, optimized specific air consumption

Main Features A9500p

iREED and single hole relay nozzle

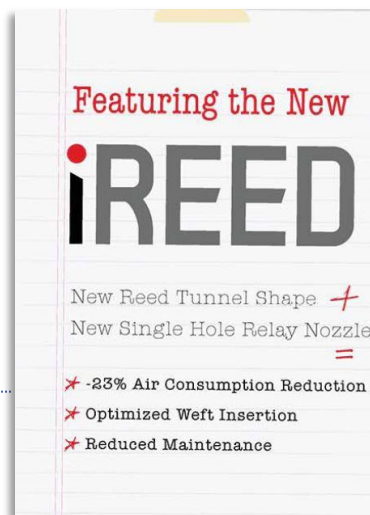

iPOS to increase productivity

RTC – Real Time Control and Digital Air Consumption Metering for optimized air flow

Interchangeable components with R9500

QRP seal: 24 months guarantee

More gentle weft insertion due to Cam sley with longer dwell and Double Tandem Nozzle

Apparel /
Household /
Technical fabrics /

Efficient production of high quality standard fabrics.

One of the fastest airjet machines in the market. Technologically advanced to guarantee top fabric quality and highest performance.

2 YEARS WARRANTY ON OUR CERTIFIED MACHINES

Why A9500

Productivity / Speed / Quality
A9500 has the highest production rate combined with speed and efficiency.

Main Features A9500

- High speed and low vibrations
- Perfect fabric quality
- Powerful electronic platform
- Perfectly balanced sley driven by cam for a perfect weft insertion
- Optimized air consumption for minimized energy costs
- Interchangeable components with the R9500 which leads to reduced spare parts costs

Apparel / Household / Technical fabrics

Strong position in light weight denim and sheeting

High speed and performance, unparalleled productivity, consistent top fabric quality.

2 YEARS WARRANTY ON OUR CERTIFIED MACHINES

R9500 *terry*

NEW

Household

High-quality, premium towels

✓ Why R9500terry

Based on R9500 bestseller's sturdy structure and advanced technology, sets a new benchmark for terry weaving

✓ Main Features R9500terry

- Improved fabric quality due to reduced tension on pile warp
- Best-in-class loop formation and unmatched versatility
- Single and compact motor for increased reliability and lower operating costs
- Innovative fabric movement for excellent terry

R9500terry combines utmost quality, versatility, efficiency and usability. Breakthrough innovations and proven technology.
